

# Funding Alert !

We are proud to announce that Opkey (pCloudy is a part of Opkey) has secured a whopping \$8 million funding round by Vertica Capital Partners. This announcement has been long due as we have been waiting to share this big news with you at the right time.

This new round of funding has done much more than just bring in the money. It has given us the confidence to continue to innovate and build products that astonish the app testing world.

We are grateful to Vertica Capital Partners for their faith in our product and tools. This step towards growth affirms the strength of our product and the organization as a whole.

**It isn't just about the money though.**

We are on a mission to transform the app testing world for the better. We believe that there is always room for innovation and improvement of testing practices in the world out there. And with a single minded focus we are able to solve some of these challenges and achieve some herculean tasks that seemed impossible at first. We have grown time and again and brought in a host of innovative features that have changed the course of testing for many businesses that use our platform.

With the latest testing capabilities such as **Visual AI plugin, Progressive Reports,** Foreign Language integration and the all new product experience, businesses are able to scale up their testing efforts and release product updates and applications much faster. What's more is the joy of seeing our clients achieve their goals faster than ever before.

We are so thankful to all our customers and partners who continue to hold us accountable and support our initiatives with great regard. We thank our stakeholders, mentors and investors who keep us on the right track to achieve our goals. We would also like to thank each and every member of our team without whom none of this would have been possible.

We believe there is much work to be done, and these little achievements and encouragements go a long long way. We are excited for what the future holds and look forward to facing the challenges head on and overcoming them in style.

**Until next time, Happy Testing!**
